The finals brought together Specialty and Gilroy's, with the Office Specialty winning the championship, for the second year, in three straight games.

Plan To Carry On, Says Fur And Leather Union

The following statement is issued by J. Starr, international representative, International Fur and Leather Workers' Union (C.I.O.):

"We a group of workers of the Davis tannery wish to state that, despite the fact that the union lost the vote for union recognition, we nevertheless intend to carry on our activities to the end that the Davis management will in the very near future recognize the International Fur and Leather Workers' Union as the sole bargaining agency for the workers."

"We are convinced that when the opportunity presents itself again, the workers in the plant will not be fooled by the rumors spread by interested individuals prior to the elections to the effect that 'the plant will close if the union wins the vote.'"

"Since the recent unfair firing of Jim Cullen for union activities the workers realize more than ever before that only through a legitimate union will they be able to get protection on the job, better working conditions and a better living standard."

"Signed on behalf of the group of workers, 'J. Starr, Int. Representative.' (Mr. Cullen's dismissal notice stated that he was absent from work without leave. Questioned, he acknowledged that he had over-stayed a leave of absence obtained, but contended that it was not the company's custom to dismiss employees for absence without leave.)"

THE CORNER WHERE WE ARE

People who think the "re-building" of the economic order is not in their interests should consult a psychologist. The psychologist would tell them that they will find increasingly the happiness and sense of security which every human being craves in an increasing sense of solidarity with "the masses." Even in poverty there may be a sense of security. Happiness comes as we identify ourselves with others and the welfare of others.

Thus when the Archbishop of Canterbury enunciates a program of social reform he is not going beyond the realm of religion. He is giving practical advice about the achievement of human happiness. And he is following in the tradition of Christ, who once advised a man to seek happiness by giving all that he had to the poor.

Here are the Archbishop of Canterbury's six points:

(1) Every child should find itself a member of a family housed with decency and dignity, so that it may grow up in a happy fellowship, unspoiled by underfeeding or overcrowding, by dirty or draught surroundings, or by mechanical monotony in environment.

(2) Every child should have the opportunity of an education till years of maturity. This education should be inspired by faith in God and find its focus in worship.

(3) Every citizen should be secure in possession of such income as will enable him to maintain a home and bring up children in such condition as described in paragraph (1).

(4) Every citizen should have a voice in the

business or industry which is carried on by means of his labor, and the satisfaction of knowing that his labor is directed to the well-being of the community.

(5) After the war, every citizen should have sufficient daily leisure, with two days of rest in seven, and an annual holiday with pay, to enable him to enjoy a full personal life.

(6) Every citizen should have assured liberty in the forms of freedom of worship, of speech, of assembly and of association for special purposes.

Building of the new world is not to be confined to peace conferences, to the Kremlin, 10 Downing St. and the White House. It is something that we must all participate in and it is something that we must do "right in the corner" where we are. This is the place and now is the hour. We mustn't fence with the familiar argument: "It is a good thing but this isn't the time."

The new world—not a permanent new world, but just an improved world which will have to be rebuilt again and again—should mean the realization of things which the community has discussed for years, such as township school areas, school health and dental services, better teaching salaries and better teaching, and better health and sanitation services, better wages and more security of employment in ordinary or depression times.

One of the most urgent changes, it seems to us, is a wider distribution of university education. University is a privilege, an opportunity to prepare for leadership (but too often used as a key to an easy living), which should be given, not to those whose parents can pay for it, but to those, regardless of means, who are most likely to return a dividend to the public. That is a particular in which Russian common-sense (sometimes spelled "communism") has outdistanced us.

And so on. But we will have few changes, few improvements, if we leave it all to "Joe" and "Winston" and "Franklin." They can be the architects of the new world but we must be the builders. Of course, we must do some planning too. We must make our contribution to world thought, to national thought, and to local community thought. We must talk with others, through our radio forums, our newspapers, and our organizations. We can't have things all our own way.

No individual, not even the Archbishop of Canterbury, can build the post-war world to his own specifications, but each one of us can have influence in our own community and incidentally achieve some personal happiness through identifying ourselves with the welfare of others and the progress of mankind.

A plan to assure every Canadian a basic minimum income regardless of age, occupation, place of abode or sex, has been laid before the special House of Commons committee on social security. The report was prepared by Dr. Leonard C. Marsh, research advisor to the government's advisory committee on reconstruction. The plan would cost a billion dollars a year.

Strong armored enemy patrols in the Gafsa area of the Tunisian front have been driven back by Allied troops.

The Red army is still smashing westward toward Smolensk, the German key base of the central front. It appears that they have also established a strong line east of Kharkov, recaptured by the Germans.

German and French police searched this week for several thousand well-armed French

youths who had defied a Nazi ultimatum to surrender.

Since the mammoth R.A.F. raid on Essen martial law has been imposed. Special trains are leaving the stricken city daily with evacuees.

REPORTS NEWMARKET BOYS IN GOOD HEALTH

Editor, The Era and Express: Would you be kind enough, through your paper, to thank the various organizations in Newmarket for their gifts of cigarettes and parcels that I have received at different times. I have had numerous gifts from the Veterans, Boy Scouts, Lions club and Firemen, and I thank them all from the bottom of my heart. I have yet to see the men who are better treated by their home town than those from Newmarket. I hope we prove worthy of all the kindness we have received.

I have seen most of the home-town boys over here and they all seem to be in good health and full of appreciation to the folks

back home for all the swell gifts. We are all looking for a speedy victory and I think our biggest hope is that we have a share in the big fight that is yet to come.

Hoping this finds everyone in good health, I will say goodbye for now. Best of luck to everyone.

Yours very sincerely,
M. E. Haines

From Era and Express files, Mar. 17, 1893

The town suffered quite a loss yesterday morning, the first fire this winter. Engineer Warren discovered the high school in a blaze when he got up to fix the waterworks fire. The whole school was in flames before anyone arrived and nothing was saved but the woodshed.

A chimney on Reeve Cane's residence burnt out on Monday afternoon, scattering sparks all over the roof. The soot burned with great heat for about an hour and a half. The chimney is used from a wood furnace.

Last Saturday Messrs. Armstrong & Cook of Toronto, interested in providing a system of water-works for a small town this side of Montreal, were here on a visit of inspection to the water-works. After going into every detail of the system they expressed themselves as highly delighted and well paid for their trouble. They pronounced the system throughout as the best for a small town they had seen anywhere and told the mayor they would adopt it in the proposed construction.

Mr. Fred Bogart, on the Toronto police force, was in town last Friday.

25 YEARS AGO

From Era and Express files, Mar. 15, 1918

Mrs. J. C. Steckley visited her mother, Mrs. J. March, at Bethesda, for a few days last week.

Mrs. Fidell, sister of Mrs. Vernon Church St., must hold the record in this section of the country. She has knit over 200 pairs of socks for the soldiers since the opening of the war.

Word has been received that a Newmarket boy who has "done his bit" is on the way home. Pte. Fred Penrose, who enlisted with the 20th battalion and went to England with the 2nd contingent three years ago next month, received his discharge papers and expects to reach home on Tuesday of next week.

A snowstorm, accompanied by a heavy gale, interfered considerably with railway traffic last Saturday afternoon and evening.

The Methodist choir of Newmarket gave the inmates of the industrial home a treat on Wednesday evening which the old people greatly enjoyed. The program consisted of choruses, solos and duets. Candy was given to the old folks.

BORN—At Queensville, March 9, to Mr. and Mrs. Ross Cunningham, a daughter.

MARRIED—At the bride's home, March 12, 1918, by Rev. H. F. Thomas, Cameron H. Currey to Christine F. Sutherland, all of Newmarket.

DIED—At Newmarket, March 7, 1918, Kenneth Harper, son of Harper and Idella Price, aged 3 months and 1 week.

NEWMARKET LADY, 83, HELPS WAR VICTIMS

Mrs. Isabella Robinson, Newmarket, has received the following letter from the head of the overseas department of the Women's Voluntary Services for Civil Defence, London, Eng., in appreciation of Christmas cards and handkerchiefs. Mrs. Robinson is 83 years old.

"Thank you so much for the parcel of Christmas cards and handkerchiefs which you sent to us. They are absolutely sweet and the handkerchiefs will be extremely useful.

"Your gift is being split up and given to children at a party in Battersea tomorrow. I am sure that many of them will write to you themselves to thank you for your lovely parcel.

"I think you might like to see the enclosed 'Thank You' booklet, which was compiled to show our many kind friends overseas how their gifts were being used and in some very small measure to express our appreciation for all the help we have received.

"We are full of admiration for the magnificent work which the women all over Canada are doing and when we realize that the enormous amount of civilian relief which you are sending over is a very small part of your great dominion's total war effort, we feel quite staggered.

"I am enclosing a copy of our Christmas Bulletin, which I think you might like to see."

Gathering the Sport Facts

Toronto Maple Leafs last week announced the acquisition of Peter Gray, a one-armed outfielder. It seems quite unusual to hear of a one-armed player, but he isn't the first to reach the top brackets in baseball. An old-timer, Hugh Daily, enjoyed considerable success in the major leagues with only one hand. Daily's left hand was missing after a musket suddenly exploded in the hands of a companion. Daily was probably the first major league pitcher to turn in two one-hit games in successive starts. Richmond Hill once had a left-handed pitcher whose right arm and hand were useless for ball playing. Herb Allman of Aurora turned in many a good game with only one arm.

In the past 42 years the Detroit Tigers have tried 40 players at short-stop, yet only two, Donnie Bush and Billie Rogell, lasted more than one season. . . . Gen. Sarazen says that Bobbie Jones and Walter Hagen were the two greatest golfers he ever played against. . . . The sports writers of this continent are thinking about building a hall of fame for hockey. The institution would be run on the same lines as the baseball Hall of Fame at Cooperstown, N.Y. But the joker of the whole thing is they are going to build it at Hershey, Pa. Imagine building a Hall of Fame for hockey in an American city.

Sixty-five percent of the 140 major league ball-players entering the services are outfielders. It looks as if any rookie breaking in has his best chance there despite the assertion by managers that any young fellow should jake up catching.

Thelma Golden, ace softball pitcher in the Sunnyside League at Toronto, has received an offer to play professional softball in the new American League being formed by Branch Rickey and Phil Wrigley. The pay ranges from \$60 to \$90 per week. Four or five other Toronto girls have been approached on the subject. This is the same Toronto league that Marj. McCarn played in last year.

Round Our Town

The town hockey front is not active now. The ice is slowly going out of the local arena and the camp team is definitely out of the competition. They were trying to re-enter the play-offs via the back door, meaning the

protest route, but Bill Hewitt, secretary of the O.H.A., wouldn't listen. The fact that they didn't go about settling the matter until after the 48-hour protest deadline had elapsed made it difficult for the local executive to get Hewitt to listen to their story.

It seems that Lister and Iannarelli, the two star members of the Brampton camp team, are not members of the Brampton staff, but instead come out from Toronto to play their games. On top of that, Secretary Hewitt definitely stated to the officials of the local team that no members of the army "Daggers" were to be used on any intermediate team.

The local team tried to use Earl (Lefty) Newbold, who has been on the Newmarket staff since last summer, but Hewitt refused them because he played for the "Daggers." Lister and Iannarelli played for the army team this year in the Toronto senior series but still they seem able to play intermediate hockey. Some of the rulings of the O.H.A. executive just don't seem to stand up.

Brampton are the winners of the local group by virtue of their two victories over Midland "Shipbuilders" last week. They took Midland 10-7 right in Midland and then came back with a 6-1 decision in their own home game played in Georgetown. In both games Lister and Iannarelli were the main cogs in the Brampton machine.

The Newmarket juvenile entry took a 6-5 overtime lacing from Sutton last Thursday night. It is about time that the fans of this town got behind the team and gave them some vocal support. They play fairly fast hockey and in a couple of years might turn into a good junior team. Men like Frank Culverwell of Sutton and Cliff Gunn, Clark Hill and Vic Giovannelli, deserve credit for their untiring efforts on behalf of the local kids.

Clark Hill, manager of the Newmarket juveniles, left to join the air force the day before the game. The day of the game he was posted to Lachine, Que. Before he left the boys got together and bought a little present for their manager. They gave him a silver air force identification bracelet with his name engraved on it.

W. L. Tibbett, 50, Dies, Was Ill Only 3 Weeks

William Laurence Tibbett died in Thornbury after an illness of three weeks on March 7. He was in his 50th year.

Mr. Tibbett was a mechanic and for some years was employed with the Ontario Hydro and the Canadian Dredge and Dock Company. He was a member of the Presbyterian church and the Oddfellows lodge.

Surviving besides his widow are one daughter, Mrs. Harry Price (Irene), Dunnville, three sons, Wm., Burt and Carl, Newmarket, one sister, Mrs. J. C. Osborne, Thornbury, and one brother, Burt Tibbett, Bracebridge.

Pallbearers were Roy Mitchell, George Knowles, Carl Potter, Sam Gibney, Harper Price and Ray Jelley.

Rev. A. B. Stein conducted the funeral service at the chapel of Roadhouse and Rose on March 10. Interment was made in Newmarket cemetery.

MOVIES PARADE

Jack Benny and Ann Sheridan head the cast of the Strand theatre's new comedy, "George Washington Slept Here," which opens on Monday. The picture produced by Warner Bros. has enlisted some of Hollywood's best acting, directorial and writing talent.

Everett Freeman's screen story, from the Broadway success by George S. Kaufman and Moss Hart, is the tale of a city-bred husband whose antique-hunting wife goes colonial and buys a pile of ruins, which is supposed to be a house where George Washington slept. Jack Benny and Ann Sheridan play the urban couple, Bill and Connie Fuller.

From then on, trouble doesn't come in three's but in six's and seven's. In the midst of moving in, a telegram announces the arrival of Connie's rich uncle, portrayed by Charles Coburn. And to make matters worse, Connie's young rascal of a nephew is there to make it hot for everybody, including the next door neighbor. Unfortunately, the neighbor is also the banker, and Connie and Bill cannot pay the mortgage. "George Washington Slept Here" was directed by William

Blood Donors Must Be Backed by Money Donors

MACHINE-GUNNED, bleeding to death, another Canadian or British fighting man is reached by the Medical Corps. Will he live? Yes, his chances are good, if he receives a blood transfusion in time.

Thanks to the Red Cross Volunteer Blood Donor Service, military doctors on the field and in hospitals, ashore and afloat, are equipped to administer the blood serum that cheats death.

Last year Canadian Red Cross collected 200,000 blood donations for use in bombed areas and on fighting fronts. This year the demand is far greater—world wide. Reserves of blood must be neither too little nor too late. The present Canadian chain of Red Cross

Blood Donor clinics MUST be enlarged and new ones MUST be equipped. Although doctors and nurses give their time, donors give their blood free, large sums are involved in maintaining clinics.

For funds to carry on, the Red Cross looks to you. The stark life-or-death nature of this appeal commands the wholehearted response of every Canadian. Think of our wounded, our prisoners of war in barbed wire Nazi camps.

Think of battle-ravaged Russia, starving China, and dying Greece and other peoples of the United Nations—then you'll give every dollar you can. Your donation will save many lives. Every dollar is urgently needed NOW.

WARNING

CANADA FACES A WOOD-FUEL FAMINE NEXT WINTER

ARE YOU one of the Canadian householders who burned fences, trees, and even flooring to keep warm in this winter's sub-zero weather?

Or perhaps you are one of the lucky ones who just managed to scrape through?

In either case, you will want to be prepared for next winter when greater hardships loom unless you take immediate action.

The shortage already has affected many communities... total stocks of dry wood are nearly exhausted... in some places the small supply of green wood cut for next winter is being used now to meet the present emergency.

Throughout most of Canada, fuel-wood is obtained not far from where it is consumed. Its production and distribution are the business of local citizens.

The Dominion Government recognizes that the wood-fuel shortage is so serious that even with the full co-operation of everyone in affected communities an adequate supply is not assured. Accordingly, it has been decided to stimulate the output of wood-fuel by assisting those normally engaged in its production and distribution. To this end, the following measures will be adopted:

- 1 A subsidy of \$1.00 per cord will be paid to dealers on all commercial fuel-wood contracted for and cut on or before June 30, 1943, and held to dealers' account on that date.
- 2 The Coal Controller has been authorized to arrange in his discretion for the payment of such portion of the transportation costs as he considers proper in respect of fuel-wood, particularly in cases where dealers, to procure supplies, find it necessary to contract for fuel-wood at locations outside the area from which they normally derive their supplies. In order to obtain any such reimbursement, dealers must obtain a permit from the Coal Controller before contracting for such supplies.
- 3 The Coal Controller will repurchase from dealers at dealer's cost all commercial grades of fuel-wood on which a subsidy of \$1 per cord has been paid and which are still in dealers' hands as at May 31, 1944.
- 4 Assistance will be given in providing priorities for necessary equipment.
- 5 Farmers now on the farm, and who leave the farm temporarily in response to this appeal to engage in fuel-wood cutting, will be deemed by National Selective Service to be carrying out their regular occupation as farmers and will be given all the rights of deferment of military service which such an occupation now carries. Such temporary absence should not, however, interfere with agricultural production.

Municipal councils, farmers, fuel dealers, individual citizens, service clubs, and all other groups in communities where wood-fuel is burned, are urged to begin at once a rapid survey of their local situation, and to take immediate action to relieve the shortage.

THE DEPARTMENT OF MUNITIONS AND SUPPLY
Honourable C. D. Howe, Minister

DOWN THE CENTRE

Hello Gang! Unexpectedly the old trooper got leave from the wilds of Borden and is typing this bit of copy at the old stand. Well, after a week of army life we find five pounds have coiled melted from the old torso despite the fact our appetite is as good as ever. Regularity of hours, early rising and some gym work have been responsible, plus three sergeants on the P.T. course whose names are, respectively, Mundy, Blocki and Redfern, but beside whom old Simon Legree and his slave whip seem like Mary and her little lamb. These three babes are swell fellows off the gym floor, but when the whistle blows you think you're doing post-graduate work on the rock pile at Alcatraz, or with a Georgia chain-gang. The wonder is how you survive it, but they say that at the end of the six weeks course (if you can still take it) it's child's play.

The gym at Borden from the outside looks like a well-appointed summer resort dance hall, and inside is a perfect example of stream-lined activity. We have seen most of the important gyms in eastern Canada, but for diversity of equipment and compactness, the Borden gym takes second place to none. That goes, too, for the instructors.

Canada's soldiers are learning to be tough, and this unarmed combat they teach is a combination of judo and rough-house fighting. The punches aren't spared and our boys will be able to deal with the nastiest Nazi or the nerviest Nipponese with dispatch and on any terms. There is tumbling, like Frank Tunney's wrestlers do, team games for alertness, tug-of-war, work on the apparatus and army wrestling. As a spectacle this army wrestling is nothing to look at, the chief thing being to fight cleanly and lift your opponent off the floor. It is calculated to provide fun for the contestants and good tough conditioning for the contestants. Sgt. Mundy is by way of being the strongest little man we have ever seen. Blocki is about as finely a built man as we have seen, with the strength of El Torro. Redfern, who is our particular taskmaster, is a young smoothie who moves like greased lightning.

Saw Long John Vandenberg, now a sergeant with the Queen's Yorks active unit and at Borden on a course. Big Johnny, as neat a hardballer and softballer as you'd want to meet, looks in the pink, and is taking to the P.T. course like the duck takes to the mill-pond. Of course, P.T. is only a small part of the course we are on, but so far as the muscles are concerned it seems like the most of it.

Bruce Cutting, former goalie for Newmarket high, and sub-goalie for Charlie Rowntree's junior Redmen, is a next-door neighbor of ours. We are at A23 with the armored corps, while Bruce is a lance corporal with the medical corps.

Top athletic figure with our squadron is Nick Lynstar, the regimental A23. Mr. Lynstar, back from overseas, is a former welterweight champion of Canada, and once was champion of west to fight Frankie Battaglia. In his spare moments he is lending his coaching hand to the boys at the K. of C. hut, which is our soft-drink and hot-dog oasis. We doff our beret to those behind the K. of C. and the Sally Ann. They are doing a swell job and supplying plenty of diversified entertainment and comforts for the boys. Lew. Knowles from Newmarket is employed at the Sally Ann at the news and tobacco stand and he is always glad to see any of the boys from North York. The fine weather has spelled finis for the outdoor rinks, unless Jack Frost gets busy.

Hockey finds the Saskatchewan Horse riding at the top of the North Zone hockey league, with the Grey-Simcoe Foresters second best.

Army rams won over Collingwood last week and we liked the way they took the Shipbuilders 43 although it was clear that the Rams, who are a tank outfit, have quite a team in hand and they may yet give Owen Sound a merry chase for honors.

Lieut. Orville Burke, ex-backfield star of the Ottawa roughriders, is the coach and plays, too. Gordie Smith of Cornwall Juniors, and Hunnissett, who was with U.T.S., are the netminders. They are both good. Mickey Macguire, who played for Newmarket camp last year, and George Fennell, formerly of Barrie Colts, along with Lieut. Bill Dymott of Barrie, on defence. Bill Jones of Truro Bearcats, the redoubtable Eddie Burke, Spooner, Eno, Kerr of Timmins, Benny Harris of last year's Sutton team, make up the team, which is just beginning to click, and move with the buttressing power of their namesake. They hail from A9 training centre.

Whizzers is the name of the second army tank brigade team, of whom we know but little. They were playing Nobel A.C. from Parry Sound in the O.H.A. series, and the Nobel team we heard of from Ian Forster, ex-Newmarket Redman, in the nets. The Whizzers are said to be pretty good and we shall know all about them for next issue.

Hurrah! Once again as a deposer we turned out to be wrong and Brampton camp came through over Midland to take the honors for groups two and nine with ease. The series lasted but two games, with Brampton winning away from home 10-7 and at home 6-4. It was Teddy Lister and Joe Lannarelli who once again spearheaded the rosetown buddies through to victory, with big John Murdin doing his share too. Aurora arena sure lost a paying source of revenue when they let Bing Caswell's boys slip away. A little bit of tact and more interest and they would have stayed. Private management of the arena would have been able to hold them, we think. Hope to see Brampton go through to the O.H.A. title but don't think they will do so, despite their obvious class.

Aurora Ordnance depot gave Newmarket Camp quite a shellacking on Thursday. There was nothing at stake for either team, but make no mistake about it the Redmen were really trying in their last team appearance, and had "Lefty" Newbold, ace forward of Army Daggers and hardball hurler de luxe, back with them. Newbold apparently played a swell game even though we can't say that first-hand. The clubhouse critics say if "Lefty" had been with the Redmen in the group they would have still been chasing the rubber. Ordnance added "Goose" Hewson to their line-up and the big fellow was really hot. Last time he played in Aurora was with Oshawa Juniors against Aurora Tigers three years ago. It was the last time that some of the Redmen will be seen in these parts, as we understand most of the team are on draft for other centres. The 11-4 score indicates the edge Ordnance had and those who witnessed the clash say that the Aurora All-Stars gave Ordnance a better argument than did the Redmen. Why? Giovannielli and Jimmy all season were saying the all-stars were as good as the Camp, but the Camp, we understand, spurned them, in fact, said they were nine goals better. Far from drawing but peanuts such a series, if properly publicized, might have reached the heavy sugar class. The whole thing gave a few of the boys quite a chuckle.

Billy Hewitt has the Ordnance Depot certificates in hand and we seriously doubt if all the players will be passed, altho' with army teams you can't tell. Certain starters, however, are: Bobby Lynn, Al and Gordy Shill, Johnny Calhoun, New Haven, Doug Adams, Hershey, Briggs Creighton, McCarthy and Rothwell. "Bunny" Glover and "Buck" Davies, both formerly of Montreal Royals, who played only a few minutes with Daggers, should be as eligible as Teddy Lister and Lannarelli of Brampton, who did likewise. Biggest problem will be to secure Harry Dick and "Goose" Hewson. However, Staff Simpson is not worried about things and says he has plenty of players in tow. For that matter, under O.H.A. replacement rules any of the Newmarket Redmen would be eligible for duty. Meanwhile the Aurora executive are keeping their fingers crossed. It hardly seems likely that there will be natural ice available, which will mean all the games will be played either in Toronto, Midland or Oshawa.

A meeting was held last Wednesday to discuss the formation of one school trustee board for the whole township, instead of the present method of one board for each school. The meeting was well attended. C. A. Lapp, inspector of schools, was in the chair and explained the new plan, showing its benefits and urging its acceptance by the electorate.

After an open discussion, during which many took part, it was decided that a township meeting should be held in the hall at Sharon sometime during the month of April, for further discussion of the subject. It was agreed to ask the trustees of the various schools to make this meeting known in their school districts.

The fourth and last of the missionary addresses for the season will be given in the United Church at the morning service on Sunday. The address will be illustrated with lantern slides.

This address will be given in the schoolhouse on the fourth line for the Hope church at 2.30 p.m. and at Sharon church at 7.30 p.m.

The following Red Cross articles were sent in for January and February to be packed at Sharon: 24 prs. of gloves, one pr. of mitts, one pr. of seamen's socks, two turtle-neck sweaters, 10 prs. of socks, one sleeveless sweater, one boy's cap, five hospital kimonas, four quilts, one boy's coat, two hot water bottle covers.

Mrs. Leonard Case, Misses Shirley and Ruth Smith of Toronto, and Lorne Smith, R.C.A.F. Galt, spent the weekend with their parents, Mr. and Mrs. Fred Smith.

Dan Shannon, R.C.A.S.C., Camp Borden, spent the weekend with his parents.

Mrs. Horace Pearson of Mount Albert is supplying for Mrs. Frank Ross in the junior room of the public school, for a few days. The canvassers for the Red Cross drive are receiving generous support, which speaks well for the success of the campaign.

Little Miss Nancy Jean Kavanagh visited her father in Toronto last week.

Miss Jean Kavanagh spent a week at her home looking after her mother, who has been ill the past two weeks but is better now.

Jack Kavanagh, R.C.A.F., has been transferred from Lachine, P.Q., to Camp Borden.

KESWICK

WORLD DAY OF PRAYER IS WELL ATTENDED

The world day of prayer was held in Keswick Christian church on Friday afternoon with a splendid attendance.

Mrs. W. C. Lunn of Pine Orchard presided, assisted by Mrs. Gordon Lapp, Mrs. R. W. Serriek and Miss Joy Marritt.

Mrs. Geo. White sang a lovely solo, accompanied by Miss E. Morton at the piano. The group was favored with a lovely duet by Mrs. Orley Hayes and Miss Bertha Neilly of Newmarket, entitled "The Beautiful Garden of Prayer."

In the absence of Mrs. Smalley

of Ringwood, Mrs. Serriek read her inspiring message.

Mrs. Orley Hayes rendered an appropriate solo, "Prayer Perfect."

with Miss Bertha Neilly as accompanist.

Several ladies led in prayer and read passages of scripture.

EMPLOYMENT...OF THE PEOPLE...BY THE PEOPLE

FRED: "What's that you say? Life insurance savings pay a lot of wages? Whose wages?"

FRANK: "Might even be ours. You don't suppose they keep it hoarded away in a big gold pile, do you? No, they finance jobs like this all over the country."

THE premiums your Uncle John has paid to protect the future of Aunt Jane and the kiddies, may have rolled back into your pocket. Perhaps you're working on the construction of a munition plant, or on new housing for munition workers. If so, the chances are that part of your wages have been paid out of savings your neighbours have put into life insurance.

In peace time these savings may have built the school you used to go to, or the hospital where your baby was born. Certainly they helped develop the electricity which cooks your Sunday dinner. The paper you read, the street car you ride on, even the coins you spend, are at your service partly because of insurance investments in Canada's forests, mines and factories.

Four million of you insurance owners keep a lot of money circulating through the country. Your savings, great or small, ranging all the way up from a few dollars a month, have made life insurance a great business democracy. You people own the assets... over two billions of dollars... always on call when you or your dependents need help or protection, and yet always circulating to make more jobs for more people. And since, today, victory is everybody's business, your life insurance companies are investing every dollar they can of your savings in Victory Bonds. They help to pay workers who are making the tools of victory.

DOWN THE CENTRE

(Continued from Page 6)
Montreal army. Their backer,
however, showed a profit in five
figures this winter, which ain't
hay.

Marj. McCann has her battling
eye in high gear, as she is hang-
ing out the old apple with aban-
don in the R.C.A.F. league at
Toronto Coliseum. Marj. and her
mates are out in front in the final
play-off series.

Ray Lloyd, who is perhaps bet-
ter known as "Andy," who suffer-
ed a painful shoulder break in the
Aurora town league while playing
for King, is still ill and the boys
led by Roy Middlebrook and Jim
Walker have decided to do some-
thing for the lad. We understand
he will be voted money from the
treasuries of all four clubs, plus a
full share by the King team.
Later it is planned to hold a dance
at Middlebrook's to clear the lad's
expenses.

Lloyd, a good willing performer,
deserves a hand from the boys and
we are pleased to give this bit of
good sportsmanship a bit of pub-
licity. Too often an injured play-
er, through no fault of his own, is
made to suffer financially as well
as physically. An injured player's
fund should be established in
every league that is organized
and regularly subsidized by the
fans and teams. The Beveridge
plan might well be followed in the
sports front.

Stewart Walker, son of J. B.
Walker of Aurora, and now
pilot-officer with the R.C.A.F. at
Summerside, P.E.I., returned to
hockey action this winter and led
his station team to the armed
forces championship of the island.
Stew did no playing in Aurora
but played a nice game for Kirk-
land Lake Blue Devils the past
few years.

"Ace" Yake, one of our peren-
nial correspondents, writes as fol-
lows from Newfoundland: "Just a
line to say hello and thanks for
the swell paper you send me. Do
many of the boys visit Aurora
from the training centres or are
they all too hard at work? Aur-
ora has had a lot of good hockey
teams but never won a title and I
am hoping to read that this year
it will be different. See Ken,
Holmesaw is still refereeing and I
guess as blind as ever. Am
pulling hard for navy to come
through for the O.H.A. and Allan
cup, as Bill Wilson and Scotty
Mair are pretty swell fellows. As
good judge for the series I remem-
ber George Mara, who is their
lineman, very well. He just about
beat Aurora Tigers singlehanded,
as you will remember.

their regular monthly meeting at
the home of the president, Mrs.

roll-call was answered with a
contribution to a sailor's ditty
bag. After the minutes of the
previous meeting were read and
approved Mrs. Bunn gave the
current events in a complete and
concise form. Miss Emma Young
read an interesting and instructive
article on "Home Economy

Mrs. Cole invited the Institute
to come to her home for the next
meeting which will be held on
April 13 at 7.30 p.m. A good at-
tendance is requested to complete
all business for the year. Elec-
tion of officers will be held. The
roll-call will be to pay your fees."

Mrs. Somerville won the doll.
The proceeds were \$8.15.

The hostesses, Mrs. Upton, Mrs.
Cole and Mrs. Lister, served re-
freshments.

The Women's Auxiliary held
their first March meeting at the
home of the Misses Young on
March 3. A parcel of knitted
goods and other clothing was
packed for a boy student at an
Indian mission.

The treasurer, Mrs. Brown,
gave an encouraging report of the
finances. Arrangements
were made for conducting the
day of prayer service in Christ
church on March 12. Mrs. Bad-
land invited the W.A. to hold
their next meeting at her home
on March 17. Rev. Mr. Rhodes

Belhaven Women's Institute held
their March meeting in the hall
on March 9 with 15 members and
visitors present. Seven children
who were present provided a great
deal of the program. Mrs. Ewart

Mrs. Mle Sedore took charge of
the meeting, owing to the illness
of the president, Mrs. Bernard
Davidson.

Gifts have recently been made to
the mobile kitchen fund and to the

The secretary, Mrs. Eddie Cry-
derman, is moving from the dis-
trict in the near future.

on "Home Economics," urging the
ladies to conserve. "New material
is inferior to what we were able
to buy some time ago, so be wise
and take care of what you have,"
she warned.

The hostesses were Mrs. Robert
Davidson and Mrs. Ivan Mann.
The next meeting will be held in
the hall on April 13, when the
election of officers for the year

vited to attend. The course com-
mences on March 29, continuing
on April 1 and 2.

On Friday evening, March 26
the North Gwillimbury Red Cross
society are having a "white ele-
phant" sale in the Belhaven com-
munity hall. Any articles which
can be spared or other gifts con-
tributed will be thankfully re-
ceived and will add to the general

Mle Sedore of Willow Beach will
be the auctioneer.

Red Cross sewing days in the hall
will be March 24 and 25.

The sidewalk has had little traf-
fic this week owing to the last
snowstorm, but recent thaws are
helping to open the road.

POLICE COURT

SLOT-MACHINE BRINGS \$100 FINE AND COSTS

Pleading guilty to a charge of "unlawfully keeping a common gaming house," Mrs. Jean Hawkins, Schomberg Junction, was fined \$100 and costs or 30 days in jail by Magistrate W. F. Woodliffe in York county police court at Newmarket on Tuesday.

According to Constable Edward Major of the York county police, Wednesday, March 3, with a search warrant, he went into the "Village Bar" on Yonge St., at Schomberg Junction, and after purchasing a chocolate bar, he began to operate a slot-machine. He said that he had inserted ten nickels with no result but on inserting the eleventh nickel a combination of two cherries and a bell appeared. At the same time he received five slugs out of the bottom of the machine. The officer of the York county police played two more nickels and received three additional slugs.

"I then asked at the counter and Mrs. Hawkins gave me a package of cigarettes and a ten cent piece," stated the witness. "I then produced the search warrant."

"Is there any skill involved in playing the machine?" inquired Magistrate Woodliffe.

"No, there is no skill needed whatsoever," Mrs. Hawkins replied. "I saw it was purely chance."

Mrs. Hawkins admitted that she was the proprietress of the bar, the constable said.

Constable Allen Wallace testified that he had preceded Constable Major into the bar and played a few turns on the machine and received a number of slugs. He said that he was present when Constable Major exchanged his slugs for the cigarettes and ten cent piece.

"Have you anything to say for yourself?" his worship asked Mrs. Hawkins.

"Do I get paid for the cigarettes?" asked the defendant.

Magistrate Woodliffe imposed the fine and confiscated the machine.

Finding Clyde Johnston, Toronto, guilty on a charge of careless driving, Magistrate Woodliffe fined him \$5 and costs of \$1.50.

Constable Alex. Ferguson stated that he was stopped by Clyde Johnston had cut down nine guard-rails on a section of 32 posts on Highway No. 11 at the south end of the Bradford flats on March 1 at 7 p.m. The car was going south.

On the stand Mr. Johnston told his worship that he had left his place at Beeton and on the way remarked to a passenger in his car that the car was not taking the curves very well. He said that later after the accident, a garage man found that the steering-gear was off line. He said that the mechanic told him that it was possible it had been like that previous to the accident.

"It all boils down to this, that you do not know why the accident occurred," remarked his worship.

"You were on the wrong side of the road. You knew before you became involved in the accident that the steering-gear was bad. There is nothing left for me but to register a conviction."

A fine of \$7 and costs of \$1.50 was imposed on John Rusto, Newmarket, for failing to have flares on his truck.

According to Constable Ferguson, he stopped the defendant in East Gwillimbury on Feb. 22 and asked to see his flares.

"He couldn't produce any," stated the officer. "He had no tail-light or reflector on the back of his vehicle."

In the absence of Crown Attorney N. L. Mathews, K.C., Miss Beatrice Lyons examined the witnesses.

TOTAL ABSTINENCE URGED FOR HEALTH

The March meeting of the Newmarket W.C.T.U. was held at the home of Miss L. Toole with the president, Mrs. Arthur Winn, in the chair.

Mrs. L. E. Sparks took charge of the devotional exercises, reading I Cor. 15: 51-8. "Be ye steadfast, unmovable, always abounding in the work of the Lord and your labor is not in vain." Prayer was offered by Mrs. Roy Arnold.

Mrs. J. A. Maitland was chairman and clerk of the play "Total Abstinence." The following took part: Mrs. L. E. Sparks, "Dr. Research," Mrs. Arthur Winn, "Mrs. Homes," Miss L. Toole, "Mrs. Community," Miss L. Starr, "Mrs. Community," Mrs. Jas. Phinister, "Mr. Pastor," Mrs. Roy Rose, "Miss Workman."

The verdict from research and public opinion was that even moderate drinking was harmful. Total abstinence from all alcoholic drinks is the only way to insure community health, welfare and progress.

Mrs. Sparks sang a beautiful solo, "Must I Go and Empty Handed." The meeting closed with the singing of the national anthem.

EFFICIENT DIRECTION OF SCHOOLS PRAISED

blities, your teachers are making an important contribution to the war effort, which I am sure, the board and the public appreciate and value highly.

"The new members of the staff, Messrs. Hall and Rumble, are working co-operatively and are contributing to a total effort of which the members of the board may feel justly proud."

"The standards of work and the proficiency of the pupils throughout the grades are highly creditable to the principal and the teachers. However, the results of good teaching are most apparent in your entrance classes, where the pupils display splendid attitudes towards their work, their teachers and their schools, along with a very high degree of proficiency in the various courses of the program."

"The purchase of the radio-phonographs for the schools was a progressive step, and their value will be increasingly apparent as educational programs become more numerous. The teachers can make effective use of these sets in social studies, science and health. In music appreciation they are invaluable, as the great majority of our children should be trained as listeners rather than performers."

"Free licenses for these sets can be obtained from the department of education, through which they are issued by the department of transport."

"Last year the board made a beginning in the provision of the best primary reading material. The new books have been used effectively, but more titles are needed. The little beginner who enters a new world. It will be a happily fascinating world to him if he can learn to read quickly from the most attractive books."

"That this is generally recognized is apparent from the great variety of beautiful primary reading books offered by the publishers. It need not be of these books, and I cannot too strongly recommend that you make a generous appropriation for their purchase."

"In all grades extensive reading is of great importance. Therefore, regular additions to the school library are desirable. An average of \$25 per classroom annually would gradually build up the library, which has not increased very much in recent years."

"I notice that Mr. Jackson has secured books from the travelling libraries branch of the department of education. I trust suitable books in the public library could be circulated more freely if they were loaned to the schools in a similar manner."

"The attendance throughout the schools is average on the whole. For the school year 1941-42 the percentage of actual to perfect attendance was 91.99 in Newmarket. I haven't the figures for at Ontario for 1941-42, but for the school year 1939-40 the percentage for all public elementary schools was 91.6, and for all urban public elementary schools, 92.7."

"The highest percentage of 1939-40 for a comparable town—Hes-

peler—was 96.6. Hespeler provided a nursing service for the 456 pupils, which was probably a factor in the high attendance efficiency.

"Double desks are a menace to the health of the pupils because disease is more readily communicable when children sit in close proximity; they affect the work of the pupils, who lack space and many copy from each other; and they make discipline more difficult. It is to be hoped that the board will soon provide single desks for all pupils."

"The steps at the King George and Stuart Scott schools were dangerously icy during my visit. It is obvious that such a condition might prove to be very costly to the board."

QUEBEC KEEPS FAITH

Like our sister provinces, Québec has loyally geared all her energies and resources to furthering Canada's war effort. Québec is delivering the goods, in quality and quantity, promptly and efficiently. Her sons and daughters are distinguishing themselves by fighting, serving, working in all phases of the Allied battle of combat, convoy, and production.

Québec is a vital factor in the production of war material and weapons. She produces 40% of the United Nations volume of aluminum, 60% of the total supply of asbestos, 25% of the world's newsprint (70% of all newspapers in the Americas depend on her for paper). Lumbering and mining for war purposes have reached vast proportions in French Canada. This Province supplies enormous quantities of foodstuffs to the United Nations, especially to Britain.

Merchant ships and war vessels, tanks, artillery, shells, aircraft, parachutes, supplies for the forces, ammunition of all kinds, depth charges, innumerable wood and textile war products, chemicals, explosives, are major items of our output from a vast manufacturing complex powered by enormous hydro-electric resources.

War demands on our industries and agriculture, and our increasing participation in the Navy, Merchant Marine, Air Force, Army, and Women's Auxiliary Services, are absorbing all our men and women power.

Québec supports to the limit every war and Victory Loan and every war campaign for funds, over-riding all objectives. Education is making great strides and is now focused on war needs. Québec is keeping faith!

We warmly welcome all our fellow Canadians whose business brings them to Québec Province. Though our people toil night and day for our common Victory, our hospitality to visitors is as warm as of old while the quiet charm and scenic beauty of Québec remain unchanged. We cordially invite our friends in Ontario and elsewhere in Canada to visit us again when Victory has been won.

ST. PATRICK'S TEA

By GOLDEN GLOW

Today, March 17, the Newmarket Girls' Bridge club is giving its annual St. Patrick's day tea. This year they are holding it in the soldiers' club on Millard Ave. I have just come from there and it was close to 5 o'clock, and still the tea-guests were arriving and the rooms were still well filled with a merry throng.

The beautifully appointed tea-table was placed just opposite the door as you entered and for a centerpiece they had arranged a large V for Victory done in spring flowers. The tea-table called for many pleased comments—and no wonder! Of course it carried out the idea of St. Patrick's Day—tall green candles in tall silver holders adorned each end, flanked by crystal flashes of green, nickles and coppers. There were tiny green "Paddy's pigs" and miniature "Paddy's pipes" and Irish harps here and there between the two silver tea-services at either end.

But it was the wonderful sandwiches and small cakes that caused the most pleased comments, for they, too, carried out the color scheme, while being so dainty and so delicious. There surely must have been the proverbial "37 varieties" of sandwiches and but don't say I said so—I'd love to have sampled every different kind, they were so appetizing!

Of course you know the members take this way of raising funds for their war work, and there was a sample box showing all the different items included—there must be 25 or more included, apart from the knitted comforts, the socks, sleeveless sweaters, turtle-neck mufflers, etc. Ross Hugo had painted a poster depicting the arrival of just such a box overseas from the Girls' Bridge club. The lucky chap who received it is sitting in the tower of the dining-decker bunk with all the different articles spread around, with half a dozen or more envious buddies looking on and making comments. One chap in the upper bunk is trying to make a pair of socks with a bent fish-hook and a string.

Then there are dozens of letters of appreciation received by the girls from every branch of the service, sea and land and air. And W. J. Hopkinson painted an appropriate poster for that display.

At the door at a little table, lighted by two hurricane lamps and with more spring flowers, was the
